

APRIBOX

Electric can opener

A QUICK AND SAFE CUT

Opening a can is not a problem but if there are hundreds of pieces, it becomes fundamental to use **Apribox**, the electric can opener which opens round cans up to five kg in a few seconds.

Apribox is easy to use: once the can has been placed, it is enough to operate the relevant lever to lock the can. At the same time the blade will perforate the lid and open the can while it rotates.

A magnet will hold the lid, preventing it from falling into the product.

Apribox makes a quick and safe cut, without leaving any sharp edges on the can or shavings in the product. The cutting height is adjustable in accordance with the capacity of the can.

Apribox allows the opening of more than a hundred cans per hour, safely and quickly, guaranteeing an impeccable work in every modern kitchen.

LA SCIENZA DELLE GRANDI CUCINE

APRIBOX

Electric can opener

MACHINE FEATURES

Supporting column, clamp, locking plate, blade protection and magnet support made of AISI 304 stainless steel

Motor body made of bright Anticorodal alloy

Motor case made of ABS

Cutting blade and rotating gear made of heat-treated steel

Table locking plate

Electric cable

OPERATIVE FEATURES

Can automatic rotation and perforation device

Cutting height clamp

Lid magnet

Cutting blade lifting lever

Cutting blade activation lever with micro switch

0,12 - kW gearmotor

Voltage V 1~230V 50Hz + PE

Net weight: 10 kg

TECHNICAL DRAWINGS

APRIBOX

APPLIANCE CONSTRUCTED TO
HARMONISED STANDARDS AND
COMPLETE WITH CE MARKING

Company with EN ISO 9001
certified Quality Management System
